PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

The Ussuriysk Ammunition Depot South is 12 kilometers (km) south of the Ussuriysk complex (Figure 1). It covers approximately 800 acres and contains 76 buildings including 47 large, dispersed explosives storage buildings, 21 support buildings, 1 administration building, 2 possible barracks, a probable depot administration building/guard office, 3 possible guard towers, and a wheeled-vehicle main-

tenance and storage building with an associated figure-8 driver-training course (Figures 2 and 3).

The installation has been covered by ☐ KEYHOLE missions of interpretable quality since its initial identification on ☐ ☐ Comparative analysis indicates no apparent change.

25X1D

DESCRIPTION OF INSTALLATION

Road Service

The installation is connected by a 2 km secondary road to a primary north-south road leading to Ussuriysk.

and 11 support buildings. There are 3 possible guard towers and 5 support buildings around the outer perimeter.

Administration and Troop Housing Area

Area D contains an administration/barracks building, 2 possible barracks, a probable depot administration building/guard office, and 5 support buildings.

Equipment Storage/Maintenance Area

Area J, a probable guard vehicle and cargo truck park, contains 1 wheeled-vehicle maintenance and storage building, 200 by 55 feet, and a figure-8 driver-training course.

Ammunition Storage Area

Area F, enclosed by a single fence and firebreak and circled by a patrol road, contains 47 large, dispersed explosives storage buildings

Driver-Training Area

Area M, a probable vehicle test track, contains a wheeled-vehicle figure-8 course associated with area J.
